usually looks like a good one when you buy it. That is a failing in the comb business, and it is the reason why so many people pay a good price for a poor comb.

We have recently bought a fine lot of combs that we are selling at fair prices, and, quality considered, they cannot be excelled.

The state board of agriculture at a meeting held last week decided to make the short course in beet sugar production longer and to broaden its scope. The commercial importance of this industry in Michigan and the demand for instruction by those desiring to engage in the manufacture of sugar seemed to warrant a longer and broader course of study than that offered during the past two years.

Last Tuesday six boys ranging in age from 15 to 17 years took possession of a vacant dwelling house in the fifth ward owned by Dr. H. Kremers and proceeded to have a hilarious time with the assistance of some intoxicating liquor they imbibed to keep up their nerve and spirits. Not satisfied with ordinary outbursts of hilarity they demolished the windows and marred the interior of the building. Monday morning they were arraigned before Justice Van Duren and upon pleading guilty to malicious destruction of property were sentenced to the county jail for thirty days.

Work was begun Tuesday on the Zeeland-Holland end of the Grand Rapids, Holland & Lake Michigan Interurban line. The official announcement of the total population of the United States for 1900 is 76,295,220. There is a total of 134,158 Indians not taxed. The total population in 1890, with which the aggregate population of the present census should be compared, was 63,069,756. Michigan with 2,419,789 people is the ninth state in the union with regard to population. New York comes first with a population of 7,368,009.

Representatives of the Holland Bay City, Michigan, West Bay City, Caro, Rochester and Marine Sugar factories held an executive session in Bay City recently. The meeting decided that Michigan sugar must be kept at the standard for first grade sugar and not allowed to fall below because of being off color, as is sometimes the case, when the makers dispose of it at half a cent a pound less than the regulation price. Some of the factories, it is said, have done this, and in that way the reputation of the Michigan sugar has been damaged. It was explained that if the off color sugar is remedied it can be brought up to the required standard, and it is said this course will be followed.

Lake and Marine.

Edwin E. Chapman, superintendent of the United States life-saving stations of the tenth district, has received official notification of the completion of the new life-saving station at the new third pier off Cleveland. He has ordered the crew transferred from the old station at once. Marine circles are greatly gratified to learn of the new service, as the location of the old life-saving station rendered it almost useless in times of need, and that fact probably is the reason that the recent accidents of Lake Erie in that vicinity, have been accompanied by so many fatalities.

President Graham of the Graham Morton Co. says: "We have decided to build a new steamer for the Benton Harbor, St. Joseph and Chicago route. We will let the contract and commence work on the new boat the latter part of March or the first of April, and as she will be one of the finest steamers of the lakes it will probably take nearly a year to get her ready for the route. The new boat will be constructed of steel, will be 260 feet long and have a carrying capacity of 3,000 passengers. She will be used mostly as a day boat and possess engines capable of sending her through the water at a twenty miles an hour speed."

OUR NEIGHBORS.

Vriesland.

Mr. and Mrs. J. A. Van Zoeren of Grand Rapids, spent Sunday at Mr. and Mrs. A. Stegink.

Mr. P. Groot of Boyden, Iowa, who is a student at Hope College spent Sunday with Mr. O. Tanis.

A number of the Republicans of this place attended the Republican Rally at Grand Rapids Monday evening. All report well paid for their time and trouble.

The beautiful fall weather is a great help to the farmers in getting their fall work done.

Mrs. Oldenburger of Grand Rapids is visiting friends and relatives in this vicinity.

Port Sheldon.

Once more we must thank the boys of Holland for their kindness in turning out to our meeting Thursday night. There was a large crowd and every one enjoyed themselves. The lone man was not with us this time, I guess he thinks Mr. Whelan is too much for him. Among those from Holland were H. Geerlings, N. J. Whelan, H. Dykhuys, Arthur Drinkwater, I. Van der Belt, Mr. De Goed, P. Verberg, and Mr. De Weert. Chris Cook called the meeting to order and then turned it over to Mr. Drinkwater who was well pleased to have the honor of presiding over such a good meeting.

J. Van Dyk, township clerk, was here Tuesday.

Mart and Abe Anys and A. R. Wabbe and a number of others went to Grand Rapids Monday night.

Don't forget next Tuesday.

West Olive.

Next Tuesday Nov. 6th is election day and the entire Republican county ticket as well as the state and national ticket, should all be voted for that day. On the Democratic side in this county, W. O. Van Eyck seems to be the most popular among us, while Thos. Watson will probably be defeated by the largest number of votes, as he does not seem to be very strong around here. Vote the whole Republican ticket and you will never be sorry.

Charlie Barnes formerly of this place, but now a worker in one of the Grand Rapids furniture factories spent Sunday here with his brother Amos Barnes. Charlie says Grand Rapids will go Republican.

Abe Boyer, Jr. spent Sunday with his parents. He is working in Grand Haven.

This weather must be our "Indian summer" but as the crows are uneasy, and snow birds were heard it might be that an "Esquimaux" winter is on its way coming.

Arthur Van Duren of Holland delivered us an excellent speech here last Friday night at our Republican meeting. A large crowd attended with a number of torch lights and the band furnished good music. There was great enthusiasm when Mr. Van Duren finished and three cheers were given for McKinley and Roosevelt.

Theodore Schilling and family removed back to Milwaukee Monday, where they will live this winter. We are informed that they sold their place here, but don't believe everything you hear.

The correspondent thinks if the Democrats cannot get up a better meeting than they did last Saturday night they had better organize a "log cabin and hard cider" campaign like their grand father, Wm. Henry Harrison did about sixty years ago. They did not hold any meeting here last week but some of them are trying hard to find something to say against G. W. McBride. George gave them a cure all speech and now they don't forget it.

Rev. Mr. Branch of Bangor attended our large church and Sunday school last Sunday. Rev. Cilley conducted the services. Let the good work go on.

Port Sheldon acts as if she is trying to get ahead of West Olive. Why not join the two cities together against Holland?

H. Goodman, Joe Peck, John Olman and a number of other people around here were in Grand Rapids Monday to hear Hon. Joseph B. Foraker of Ohio, deliver a good Republican speech. They report a big time.

Our Methodist church had a box

social at the school house Tuesday night in order to raise money for a Christmas tree. It seems rather early to talk about Christmas but the early bird catches the first worm.

When Wm. McKinley gets re-elected next week why can't we have a good Republican roast turkey barbecue?

John V. B. Goodrich spoke at Olive Center Tuesday night and Friday night N. J. Whelan will speak at Roberts school house so let us all attend with torch lights and the band.

Vote for McKinley, Roosevelt and our prosperity.

Hamilton.

We have had a splendid rain and now the farmers can husk corn with out the fodder breaking so badly.

K. Dunham had the misfortune to fall and break one of his ribs last Monday. He was hanging a door and was standing on a chair when he slipped and fell on the back of another chair with the above results. He is now going around with a cane.

Old lady Willard is packing up her goods and is going to Silver Creek to spend the winter with her daughter, Hattie Pike. Merrit Palmer will occupy her house for the winter.

Business is lively at the pickle factory these days.

We notice that our section men all wear badges now so that we can tell them from the common every day people. Station agent Hoodley has had one sent him but he had so much other jewelry that he could not find a vacant place to put it on.

VOTE FOR MCKINLEY, BLISS
AND THE WHOLE REPUBLICAN
TICKET.

And Thus Perform a Patriotic Duty—
It is for the Best Interests of All
the People—There Should
be no Republican Stay-
at-Homes.

When you go into the election booth
on Tuesday next you will find at the
top of the Republican column on the
official ballot the following vignette:

The kindly face of the martyr Lincoln, who first led the Republican party to victory; the stars and stripes you love so well; your patriotism and your personal interest, all will demand of you a vote for every Republican candidate. In this way you will register your approval of the splendid administration of President McKinley and your desire for a continuance of the prosperity which we now enjoy. It is an easy and a pleasant thing to do.

Just stamp or mark a (X) in the circle under the Republican vignette. That means a vote for every Republican candidate. And thus you will have done your duty.

Largest Demonstration of the Campaign.

"It was the largest excursion of a political nature that ever entered Grand Rapids." "It was the largest excursion of any kind that ever left Holland." "It was the grandest tribute ever paid to a statesman." The above and other sentences to the same effect have been used in describing the excursion given by the McKinley Smith Republican club last Monday evening in honor of Congressman William Alden Smith.

When the plan of giving the excursion was first discussed it was expected that a crowd of about 200 would attend, but as arrangements progressed

WILLIAM ALDEN SMITH.

a larger estimate was placed upon the the crowd until at Saturday night the managers of the affair placed it at 600 if the weather was fine. Monday came dark, gloomy, rainy and murky, and expectation was at a low ebb. As the day advanced the idea of attending gained ground despite the disagreeable weather and when the time for leaving came the officers of the club were astonished at the magnitude of the crowd.

One thousand three hundred boarded the train at the Holland depot. They were crowded into 14 coaches. Then came Zeeland 200 strong and filled the cars to suffocation. This means that a crowd aggregating 1550 went to Grand Rapids to hear Senator J. B. Foraker, of Ohio, discuss the issues of the campaign. It means that that number went to show their admiration of William Alden Smith. Was ever a grander tribute paid to a man in public life? No. Not in Michigan.

William Alden Smith is one of Michigan's grandest sons and the republicans of Holland took pride in showing their appreciation of him. They took pride in showing that there is no truth in the statement that the people of this section were inclined to forsake their party allegiance, misled by democratic false prophecies and empty promises.

The delegation was met at the Grand Rapids depot by the Grand Rapids republican club and the Letter carriers band led by Colonel John Vos of Grand Rapids. The Holland marchers, carrying torches and transparencies, swung into line and led by John Cappon, Marshal, aided by assistant marshals Abe Stephan, William Cox, Abe Cappon, J. B. Mulder, Henry Geerlings and John Rutgers, paraded through the principal streets of the city to the Auditorium. The martial band, headed by drum-major Moose led the procession and the West Michigan band and the East Holland band headed different divisions. Senator J. B. Foraker, Congressman William Alden Smith, Chairman Conger, of the congressional committee, Hon. T. J. O'Brien and others viewed the parade from the Morton House balcony. The meeting at the auditorium was an enthusiastic gathering. Crowds thronged the aisles and listened eagerly to the eloquent words of Senator Foraker. The Holland contingent was especially pleased by the following reference to William Alden Smith:

"There is something else about this audience that is gratifying to me, there seems to be a good deal of 'Smith' in it. (Applause.) We had 'Smith' from the Hollanders and 'Smith' from the chairmen, and 'Smith' from the glee club, and 'Smith'—more than all, importantly—from the audience itself. (Great applause.) And I cannot tell you how gratifying it is to me, coming here on the mission I have, to find that here, in his home city and county, among his fellow townsmen, among the republicans of this district, he is appreciated as he should be. (Applause.) I have known him for a good many years, rather intimately ever since he went into public life, and I take a great deal of pleasure in saying to you here tonight, that your confidence, your esteem and your regard are not misplaced. (Applause.) Among all the representatives of districts at Washington none more efficiently and with greater credit to his party, his district and his country does his duty than does William Alden Smith. (Applause.)

It is true as has been spoken from this platform tonight that I came here at his personal request, that I came because I felt interested in his re-election, not that I doubted his re-election, for it did not seem to me

that there could be at any time any doubt, but because I wanted to see him triumphantly re-elected by a greater majority this time than you have ever heretofore given him. (Applause.)

We want the second administration of William McKinley to be as brilliant as his first administration has been; we want it to be triumphantly successful in all it undertakes as it has been triumphantly successful heretofore. (Applause.) In that behalf we not only want a republican congress, republican in both houses, but we want that congress in both houses to be composed of men who have been there long enough to be able to serve efficiently and intelligently and to help carry out the policies and the purposes of this administration. (Applause.) Your contribution will be a most important one indeed, and I congratulate you in advance that you are to continue to be represented at Washington by one so capable, to represent you with distinction, success and satisfaction. (Applause.)

To say that the officers of the McKinley-Smith Republican club, under whose auspices the excursion was given were pleased by the success of the demonstration is putting it lightly. They are delighted with the outcome. It shows that republican spirit has been aroused and indicates a sweeping republican majority in Holland.

A feature of the torch light procession was the transparencies containing the following suggestive sentences:

"Holland City McKinley-Smith Republican club. Largest in the state."

"The Hollanders believe in expansion."

"Don't leave your party for empty promises made for political effect."

"Will democrat Boer sympathy last after election?"

"Perry and McKnight came to Holland to cheer for the Boers. We've come to return the compliment. Hurray for McKinley, Smith and the Boers."

"In the name of the Boers we collect \$16.50, we spend \$16.32; balance for widows and orphans. 18 cents.—Sulzer's Boer League at Washington."

"Two friends of ours—Uncle Sam and Uncle Paul. Hurray for McKinley, and Teddy, too."

"In Holland City we are all for McKinley, for Smith, and the Boers."

"We are Americans first."

"Our sympathies are with the Boers now, and will continue after election."

"McKinley, Smith and the Boers."

"The Boers are all right—and so are McKinley and Smith."

"Dr. Kuyper advises American intervention in the Boer war. Uncle Sam knows his business."

"The Holland vote is for America first."

"American prestige and diplomacy against the world."

"Who says Mark Hanna has horns?"

"The dinner pail is expanded."

"Where is Coxey's army? Working."

"Are you sore and sour? Vote for Bryan. Are you happy and hopeful? Vote for McKinley."

"Do you wish to abate the smoke nuisance in Grand Rapids? Vote for Bryan."

"We don't patronize peddlers of political discontent."

"Great is Tammany, and Croker is its prophet—W. J. Bryan."

"We admire Mark Hanna for the enemies he has made."

"Up our way they appreciate a good thing and know how to hold on."

"Columbia on December 31, 1900: Four bells, McKinley is at the helm, and all is well."

The Zeeland Republican club made a magnificent showing. Over 200 strong they joined with the men from Holland and did their share to make the affair a success. The Zeeland boys are made of good republican stuff and

Hennepin Democrat Chair- man Announces Bryanism

Great excitement was occasioned in Holland this week by the news that E. Kleyn, chairman of the democracy committee, had resigned position in the councils of that party and renounced Bryanism.

Mr. Kleyn is one of Holland's representative business men. He is a member of the Kleyn Lumber Co. In politics he has always voted the democratic ticket but will not do so as this year. His main course in renouncing Bryanism is to believe approved by all his friends and won't praise are heard from every corner of the democratic leaders. Kleyn gave the following reasons for his change:

"Early in the campaign I was an ardent supporter of Mr. Bryan. I was deeply impressed with his speech of acceptance which was a magnificent production. I afterward viewed with apprehension and alarm his tendency to make hatred, and his attempts to array allies against employers. In the 14th made by Bryan at Salem, he stated that the republican party was erecting forts near the large cities in order to subdue, by force, the discontent which should be remedied by legislation. These intelligent citizens understand and know were erected during both republican and democrat administrations in the infancy of the government and are absolutely necessary and continue to be in demand, all all wars cease. Their erection at the large cities is because the improved facilities for transportation such places provide. Mr. Bryan also engaged in sowing the seed of discontent and discord throughout the land by making promises to law of license and luxury impossible fulfillment.

"Any man so prolific of promises is dangerous and should be classed as a demagogue. Furthermore, our national affairs and foreign relations are such that change from conservatism to idealism which a change in the administration would mean, would not only injure vast domestic interests but also lose us the open door in China and endanger our foreign commercial status and perhaps to the severance of our foreign relations so diplomatically handled by the present administration. After serious consideration I am forced to conclude that a man of Mr. Bryan's stamp, eloquent orator that he may be, should not be entrusted with the affairs of our government, and I further hope that all American citizens who love order, peace and safety will at the coming election forever crush Bryanism."

An Evening with Fred Emerson Brooks.

Wednesday evening an audience from Zeeland and Holland was very pleasantly entertained by the wit, humor and pathos of Fred Emerson Brooks.

This was the occasion of the first entertainment of the first entertainment of the Hope College lecture course. Undoubtedly the audience was well pleased. When Mr. Brooks said that he had been lecturing an hour and a half an expression of surprise passed over the audience. At one moment the wit and humor caused the hall to ring with the hearty laughter of the audience, while at the next moment his pathos produced the deepest possible silence. His rendition of the poem on the boy "whistling out of tune" was especially good. The first part of this poem was full of life and humor, but the end was sublimely pathetic. When a boy he whistled out of tune, "My country 'tis of thee" but when his spirit had gone to take its place among the angels, he whistled out of tune, "Nearer my God to Thee."

In "Pleasure Charge" perhaps Mr. Brooks was at his best. He brought us right on the battle field. What more could any one do?

The Republican county committee is not making any boastful estimates of the result in Ottawa county this year, but Chairman Goodrich has made the following conservative estimates of the size of the Republican majorities: McKinley and Roosevelt 1,700; Bliss 1,800; Smith 1,450; Kelly 1,500; Lugers 1,100; Alward 500, the county ticket 1,500. Many Republicans think these estimates are too low and figure on about 2,000 for the county.

For the HOLLAND CITY NEWS.

Death has entered the house of Mr. and Mrs. Geo Peterson of Chicago, Ill., (formerly Miss H. Peterson of this city) and removed from their midst their dear little son Irving, aged five years. He passed away Friday morning after a short illness with diphtheria. It was a bright, winsome little blossom that was blooming so sweetly in their home that it was hard to give him up and her relatives and many friends in this city deeply sympathize with them in their bereavement.

The death of Mrs. John Grevengeod occurred last Wednesday evening at the family home, 116 East Thirteenth street. Her age was 72 years and she has resided in this part of the county for 33 years. Besides her husband she is, survived by eight children: Henry Derk, Cornelius and Arle of this city, Mrs. Henry Kleis of Muskegon; Mrs. A. A. PURE BLOOD

Necessary to Life.
Vinol Makes it.

POOR BLOOD CAUSES ERUPTIONS AND WEAKNESS.

Vinol Makes Pure, Rich, Red Blood.

BECAUSE WE KNOW THIS WE GUARANTEE ITS ACTION.

Impoverished blood is a sure sign of internal disorders. We see every day too many people whose faces plainly show that there is something radically wrong.

We want all of our fellow-citizens to know of our splendid blood purifier and blood maker.

We refer to Vinol.

Vinol, as we have before stated, is a purely scientific preparation.

Vinol owes its virtue to the fact that it contains in a highly concentrated state the active curative principles, taken from the livers of live cods—the same elements that formerly were found in cod-liver oil, and which made it famous.

Vinol does not contain the grease or fat that characterized cod-liver oil and made it in many cases worthless.

Vinol acts upon every one of the great vital organs, and by invigorating and giving them strength, enables them to properly perform their functions.

Vinol's effect on the stomach is marvelous. It tones up this, the greatest of the organs of the body, and enables it to obtain from the food which is taken into it the necessary elements to create flesh and muscle tissue, bone structure and pure, rich, red blood.

We are in receipt of a letter from a Savanion Army woman which reads as follows:

"I took Vinol after a bad attack of gripe, and so much good did it do me that I persuaded my sister to take it. She was all tired out. Had no appetite and her blood was very poor. It did her as much good as it did me."—BETTY HARKERSHAW, 718 River St., Fall River, Mass.

Won't you please come in and see us? We are always glad to extol the merits of Vinol.

We will give you back your money if you don't find Vinol will do all we claim it will. Could any one do more for you?

BEGINS TO FEEL STRAIN.

Gov. Roosevelt's Voice and Chest in Bad Condition—Rain Mars the Day.

HORSESHOE PRESENTED TO PRESIDENT.

Mr. Bryan Leaves New York State and Turns His Face Westward—Makes Stops at Toledo and Other Points—Prohibition Candidates at Pittsburgh.

Rochester, N. Y., Oct. 31.—Gov. Roosevelt was feeling the strain of his continued talking much more Wednesday than at any time since he started the state tour. His chest was sore and his voice did not carry as well as before. The train left Rochester at 9:30, and, making several stops, was expected to get to Buffalo at four p. m. The rain of Tuesday and Tuesday night has left the country roads in bad condition, and the day's audiences were limited, almost, to the residents of the several towns where the train stopped.

Albion, N. Y., Oct. 31.—The sun came out just after the Roosevelt special left Rochester, giving promise of a pleasant day. The first stop was made at Brockport.

At Holly, where the train made its second stop, the prospects for a fine day had vanished and it began to rain. Nevertheless, the governor spoke to a great crowd.

The train reached Albion in a pouring rain. A crowd had gathered, however, and listened to the governor with attention. The governor devoted most of his time to prosperity and said in part:

"I ask you to compare conditions in 1893 and now. I don't want you to take the words of anyone, but to take your own experience right around here. In 1893 who was prosperous? There was not anybody prosperous. No one portion of our people can be really prosperous if there is not a good deal of prosperity coming to all."

At Lockport. Lockport, N. Y., Oct. 31.—At Medina, where his train stopped for 20 minutes, Gov. Roosevelt stepped from his car to a temporary platform. The rain had ceased and the governor occupied the full time of the stop in addressing the crowd. He devoted most of his attention to imperialism and militarism.

Reaching Lockport, Gov. Roosevelt was driven in a carriage to the opera house, where an audience was assembled that filled all the seats and standing room, while hundreds had been unable to gain admission. The governor's address here was devoted in large part to the question of prosperity.

HORSESHOE FOR MCKINLEY.

Mechanic of Springfield, O., Makes Gift to President.

Canton, O., Oct. 31.—"I am glad I came," said T. J. Thomas, a horse-shoer who works at his trade at Springfield, O. "I gave him one '96 and it gave him good luck and gave me good luck, too." Mr. Thomas had just come from the McKinley home, where he had presented the president a horseshoe which he had wrought with his own hands and which he had gold plated. He had given a similar memento to the president four years ago and was delighted to learn that the president has that one hanging in his private room at the white house.

WESTWARD HO.

Mr. Bryan Makes Stop at Toledo on His Way Toward Home.

Toledo, O., Oct. 31.—Col. and Mrs. Bryan arrived in this city at nine o'clock Wednesday morning, coming direct from Dunkirk, N. Y. They were met at the railroad station by Mayor and Mrs. Jones. Mr. Bryan was escorted to the Boody house by the mayor, while Mrs. Bryan was conveyed to the mayor's residence for a brief reception.

Beginning at ten o'clock Mr. Bryan made a speech of an hour's duration in Armory park here, leaving immediately afterwards on his day's tour of the state. He was received by cheers from a big crowd gathered about the depot when he left the car and also found a large number of people grouped about the hotel when he reached it. They cheered heartily.

Before proceeding to the park Mr. Bryan made a brief speech to the crowd assembled in front of the Boody house, telling them simply that he was pleased to see so many people out so early in the morning. At the park he was greeted by several thousand persons who cheered heartily when he entered in company with Mayor Jones. The mayor was introduced to make the first speech. He urged upon his hearers the importance of allowing their votes to represent their conscientious opinions. Whoever was elected he felt sure that the country would go on as it had been going. As for himself, he was following his highest and holiest conception of duty. There was considerable applause and also some hisses during the mayor's address.

Schoolboys Create Disturbance.

While Mr. Jones was talking 50 or 60 schoolboys congregated together in a part of the park separate from the main crowd and kept up such a clamor that it became necessary for the police to disperse them.

Prohibitionists at Pittsburgh.

Pittsburgh, Pa., Oct. 31.—The prohibition candidate for the presidency, John G. Woolley, and party, including National Chairman Stewart and Hon. Samuel Dickie, spent a short time in Pittsburgh Wednesday morning and then went to Connellsville, where a large meeting was held. Mr. Woolley

was so hoarse that he could scarcely be heard by the crowd. He said that the prohibitionists granted Pennsylvania to the republican party by electoral vote, but he wanted the people to show their interest in decent government and reform by voting the prohibition ticket.

In the afternoon a large meeting was held at Uniontown. Tuesday 17 meetings were held in New York and eastern Pennsylvania.

TO MANAGE NEW DEFENDER.

E. A. Willard to Direct the Sailing of the Yacht That Will Meet Lipton's Boat.

New York, Oct. 31.—The syndicate which is to build the yacht which will probably defend the America's cup against Sir Thomas Lipton's Shamrock II. is composed of six representative yachtsmen, according to the Herald. They are Vice Commodore August Belmont, of the New York Yacht club; Cornelius Vanderbilt, Rear Commodore C. L. F. Robinson, Commodore Edward M. Brown, W. K. Vanderbilt, Jr., and Commodore Lewis Cass Ledyard.

Of the men who will be prominent on the new boat is E. A. Willard. The syndicate will give the charge of the boat into his hands as manager. For 20 years or so Mr. Willard has been a leading amateur in the sport. When the Vigilant returned from England, in the spring of 1895, to be refitted as the trial boat for the Defender, she was in his charge. Mr. Willard has been a member of the New York Yacht club since February 1, 1872.

CHURCHES UNITE.

Free and United Presbyterian Bodies Formally Consolidated at Edinburgh.

Edinburgh, Oct. 31.—The formal union of the Free and United Presbyterian churches, decided upon at the joint meeting here of the Free church assembly of the United Presbyterian synod, was consummated Wednesday.

The scene at Waverly market was striking, though it was marred by rain. Some 3,000 ministers took part in the procession and dense crowds along the route cheered them repeatedly.

The hall where the uniting act was signed was draped with crimson and yellow and liberally bedecked with flags used by the covenants.

The earl of Aberdeen, Dr. Parker, Rev. John Watson (Ian MacLaren) and delegates from Canada, Australia, Jamaica, Africa, France and elsewhere participated.

Young Boy Abducted.

Minneapolis, Minn., Oct. 31.—A Hudson (Wis.) Times special says: Floyd Brown, an eight-year-old boy, was abducted from the Sixth street school late in the afternoon by an unknown woman and under peculiar circumstances. The motive of the abduction is yet a mystery. The boy's father lives in Duluth, which may have some connection with the abduction. The woman escaped apprehension, although detected. The authorities are making a close investigation.

Wisconsin Professor Honored.

Madison, Wis., Oct. 31.—The Society of Arts, of London, has awarded its silver medal to Prof. R. W. Wood, of the physics department of the University of Wisconsin, in recognition of his work on the diffraction process of color-photography. Prof. Wood visited England in February by special invitation of the society, presenting papers on this and other subjects before the principal learned societies of London.

Burglars Cause Big Fire.

Shelby, Neb., Oct. 31.—Fire set by safe blowers in the post office at this place burned a block of property at two o'clock in the morning, causing a loss of \$30,000. The losses include the opera house block, owned by Dr. Inks and George and Frank Brigham, \$12,000; general store of Frank E. Brigham, \$10,000. The burglars secured nothing.

Burned by Exploding Alcohol.

Pittsburgh, Pa., Oct. 31.—By the explosion of an alcohol vat at the Homestead steel works early in the morning three workmen, Andrew Dolik, Michael Dunder and John Harnett, were terribly burned. Dolik and Dunder, it is thought, will die. The explosion was caused by the alcohol coming in contact with natural gas.

Not After Coaling Station.

Berlin, Oct. 31.—The Cologne Gazette, confirming the dispatch of the press of October 29, authoritatively denies the stories of Germany's contemplated lease from Venezuela of a coaling station at the Island of Margarita, and adds: "Germany does not covet any acquisition in the vicinity of the American continent."

Heavy Imports of Sugar.

Philadelphia, Oct. 31.—The imports of sugar at this port during the month of October eclipsed the record for any corresponding period in the history of this port. More than 50,000 tons of raw sugar have been delivered on the wharves of the sugar refineries since October 1.

Dies in Her Ninetieth Year.

New York, Oct. 31.—Mrs. Sarah Anthony Burtis is dead at Rochester in the ninetieth year of her age, says a dispatch to the Times. She was born in Saratoga, in 1810. Mrs. Burtis was one of the first active workers in the cause of woman's suffrage.

ONLY MUTILATED REMAINS

Bits of Human Flesh and Bone All That Rewards Searchers in New York Ruins.

PARTS OF FOUR BODIES ARE RECOVERED

One Thought to Be That of a Woman—Investigation Shows That Tons of Chlorate of Potash and Sulphur Were Stored in the Tarrant Building.

New York, Oct. 31.—Only four bodies have been recovered from the ruins caused Monday by the explosions in the Tarrant drug house, up to Wednesday morning. Of these only one body has been identified, that of August Schmidt. The three unidentified bodies were gathered piecemeal and never will be identified. The police claim that the portions of human anatomy found represent three bodies and that two of them were men and one a woman.

Early Wednesday morning a number of bones were found. Inspectors Tench and Kenny, of the building department, found a woman's head at the northwest corner of Greenwich and Warren streets. Later the same men found a package of tools, a man's apron and hat. Inspector Graham, of the building department, while hunting through the ruins, found two pieces of human flesh and the same inspector found another piece of human flesh and a knee-joint.

Tons of Explosives on Hand.

Two tons of chlorate of potash and one ton of sulphur, it appears, were in the building occupied by Tarrant & Co. when it was demolished by fire and explosions on Monday noon.

Mr. Rogers, of Rogers & Pyatt, importers of gums, shellac and chemicals and manufacturers of varnishes, when a statement which quoted President Main, of the Tarrant company, as saying "the Rogers & Pyatt people stored much chlorate of potash with us, and this may have caused the explosion. I am inclined to think it did," was shown him at his office, said in the course of an interview:

"That statement I will not dispute with Mr. Main at the present time. We are warm personal friends. I have found him so broken down over the catastrophe that I do not think he spoke with a clear head. I admit we stored chlorate of potash with the Tarrant company."

Mr. Rogers said that though he could not tell exactly except by looking at his books, the potash amounted to something between one and two tons, and possibly even more, though he was but guessing.

He continued: "At any rate, chlorate of potash in itself is not an explosive nor in any way a dangerous chemical to store. I could show you a permit from the inspector of combustibles for the fire department allowing us to carry in stock 20,000 pounds of chlorate of potash right in our own building."

"But if chlorate of potash is not combustible or explosive, why should a permit be necessary?" was asked.

"I do not know except that I am always extremely careful about every point of chemical that comes in here. I never take a chance. I am not a chemist, and cannot tell if chlorate of potash might combine with another ingredient to form an explosive. Some of it we sell to fireworks companies, who mix it with sulphur and nitrate of strontium to make red fire. There are a great many other firms who stored chlorate of potash and other chemicals with Tarrant & Co. We had no shellac or gum or other combustible merchandise in the house at the time of the fire."

Declares It Explosive.

The Shoellkopf, Hartford & Hanna company, it is learned, likewise used Tarrant & Co.'s storehouse for chemicals of all kinds. A representative of the firm said in answer to a question: "No, thank Heaven, we had no chlorate of potash in the wrecked building. Our loss consisted merely of dyestuffs."

"Is chlorate of potash explosive under certain circumstances? I should say it was. Allow a little starch or sugar or flour or charcoal or any other organic substance to mix with it, and it is only a question of time when spontaneous combustion will take place."

Other Combustibles.

Edmund D. Congdon, representing in this city the Harshaw, Fuller & Goodwin company, of Chicago, was making up a list of chemicals he had lost in the wreck when questioned about the explosions.

"We had no chlorate of potash in store at the time," he said. "We had, however, considerable chemicals that were inflammable, among these ten 250-pound barrels of sulphur, and I should say about the same quantity of Burgundy pitch. Other chemicals we lost consisted of blue vitriol, arsenic, oxides of antimony and acids. I do not think anything we had in storage could have caused fire or explosion, though, not knowing what was in the warehouses, I am unable to say if a chemical combination might not have taken place and caused an explosion, or, perhaps, spontaneous combustion."

Will Investigate Other Drug Houses. It has now been decided by Fire Chief Croker and Fire Commissioner Scannell to investigate all of the wholesale drug establishments in the city. Chief Croker said in the course of an interview:

"I know that nearly all of these wholesale drug houses carry explosives in such quantity as to render them powder magazines to all purposes. They are a constant menace to public safety, and I propose to see that storage houses are maintained at a safe distance outside the city."

"In the past little attention has been paid to the requirements of the law. Experience in this case has proved an expensive teacher, but we will profit by this lesson."

Litigation Over Insurance.

Protracted litigation between insurance companies may ensue relative to the explosions in the ruined buildings. Plate glass insurance companies deny their liability for the many insured windows which were shattered throughout the wrecked area in the downtown business section and their officials have refused large claims. They have referred patrons who suffered losses to the fire insurance companies. The latter have determined either not to pay or still have the matter under consideration.

Plate glass insurance companies say they are protected under clause 4 in the Standard policy, which provides "that this company is not liable to make good any loss or damage which may happen by or in consequence of any fire (whether on the premises or not)."

Many prominent fire underwriters hold that damage to buildings caused by explosions, or to buildings detached or remote from a building where a fire and explosion occurs, is not covered by a fire insurance policy. The New York Standard policy reads: "This company shall not be liable for a loss caused by explosion of any kind unless fire ensues, and in that event for the damage by fire only."

GEORGE GOULD SUES SISTER.

Has Himself Appointed the Trustee of the Countess De Castellane.

Paris, Oct. 31.—The civil tribunal has appointed George J. Gould trustee for the countess of Castellane, his sister. According to the pleadings in the case her husband, Count Boni de Castellane, spent 23,000,000 francs in four years, whereas his income from his wife's fortune is only 3,000,000 francs.

The action in the case was the result of a suit brought by Mr. Gould against his sister. The court granted his request and appointed him trustee. The proceedings were conducted in secret session, only the bare decision being announced.

The Castellanes are now staying in the country together.

MINERS AGAIN STRIKE.

Three Hundred Men at Hudson Colliery Object to Enacting Conditions of Foreman.

Wilkesbarre, Pa., Oct. 31.—Three hundred miners employed at the Hudson colliery of the Delaware and Hudson company went on strike Wednesday morning because the foreman insisted on more "topping" on the cars than the men were willing to give.

Shamokin, Pa., Oct. 31.—The Corbin colliery operated by Andrew Robertson & Co., between here and Mount Carmel, resumed work Wednesday, 500 men and boys being granted the ten per cent. increase Tuesday night. The Excelsior colliery, also owned by the same firm, will resume Thursday with 600 employees.

Nome and St. Michael Joined by Wire.

Seattle, Wash., Oct. 31.—Though separated by miles of frozen sea there will be telegraph communication between Nome and St. Michael during the approaching long arctic winter. A temporary cable has been laid by the Alaska Commercial company and is now in operation. The first message was sent from Nome to St. Michael a few days before the steamship Ohio sailed from the former port. A cable toll of two dollars for ten words between Nome and St. Michael has been announced.

Not Lost as Feared.

Wilmington, N. C., Oct. 31.—The fleet of four revenue cutters bound by the "inland route" from Trenton, N. J., to Cuba, for service in the harbors there, proceeded from Southport Wednesday morning for Charleston. They put in at Southport Sunday on account of rough weather and reported one of the fleet lost at sea. The missing vessel, however, has arrived safely at Charleston and the remainder of the fleet will join her there and proceed to Tampa.

Refuse to Surrender.

London, Oct. 31.—A belated dispatch from Pretoria tells of the failure of the British negotiations with Gen. Botha for the surrender of the Boers. Botha received Gen. Paget's flag of truce courteously and admitted his defeat, but said it was impossible to treat for surrender as long as any burghers wished to continue the war. President Steyn was more irconcilable. He refused to even see the bearer of a flag of truce.

More Heavy Rains in Wisconsin.

La Crosse, Wis., Oct. 31.—A Tomah special to the Republican and Leader says: A terrific rainstorm visited the country along the Wisconsin Valley division of the Milwaukee road at night, resulting in much damage. Several large washouts occurred and it is impossible to run trains over that division. Trains are able to reach that part of the state by running around by way of this city.

To Investigate Death of Rice.

New York, Oct. 31.—Coroner Hart announced Wednesday that he will Thursday commence an inquest into the circumstances surrounding the death of William Marsh Rice, the millionaire. In a report filed with Coroner Hart several days ago, Prof. Witthaus, a chemist, said that he had found a small quantity of mercury in Rice's body.

Must Believe It.

WHEN WELL KNOWN HOLLAND PEOPLE TELL IT SO PLAINLY.

When public endorsement is made by a representative citizen of Holland the proof is positive. You must believe it. Read this testimony. Every backache sufferer, every man, woman or child with any kidney trouble will find profit in the reading.

Mrs. E. Mulder living five miles east of Holland near Ebenezer, says: "I suffered for years from a deranged condition of the kidneys. The secretions from those organs were irregular and unnatural. I could not rest comfortably at night and rose in the morning feeling tired and unrefreshed. The least cold or a strain always aggravated the constant heavy aching pains through the small of the back. Doan's Kidney Pills were so highly recommended that I procured a box at J. O. Doesburg's drug store and used them. I felt better after a few doses and in a short time I was entirely rid of the trouble."

BIG COAL STRIKE ENDS. THE TEXT OF OUR REPLY.

Miners Ordered to Resume Work at State Department Makes Public Answer of United States to Anglo-German Agreement.

MITCHELL GIVES OUT OFFICIAL NOTICE. IS A QUALIFIED ACCEPTANCE OF PLAN.

While Some of the Companies Have Not Assented, It Is Not Believed They Will Hold Out—Whole Mining Region Hears the News and It Causes Rejoicing.

Hazleton, Pa., Oct. 26.—The mine workers' strike has been declared off against all companies which have complied with the strikers' demands, and the strike will be continued against those companies which have not granted the Soranton convention's demand. The strikers will return to work Monday at the places where the tie-up is ended.

The following statement was given out for publication Thursday night by President Mitchell, of the United Mine Workers. It is signed by President Mitchell and Secretary Wilson, of the United Mine Workers of America, and the presidents and secretaries of the various districts:

"To the Miners and Mine Workers of the Anthracite Region—Gentlemen: After carefully canvassing the entire strike situation, we, your officers, district and national, have concluded that your victory is so nearly complete that no good can be served by continuing the strike longer. The contest has been in progress for 39 days and the companies employing you have, with few exceptions, signified their willingness to pay the scale of wages formulated by the Soranton convention of October 12 and 13.

"The companies agree, in their notices, to take up with their mine employees all grievances complained of. We would therefore advise that your victory is so nearly complete that no good can be served by continuing the strike longer. The contest has been in progress for 39 days and the companies employing you have, with few exceptions, signified their willingness to pay the scale of wages formulated by the Soranton convention of October 12 and 13.

"As there are some few companies who have neither posted, notified nor signified in any other manner their willingness to pay the ten per cent. advance in wages as provided in the sliding scale, we would advise that the men employed by such companies receive notice before Monday that the advance will be paid, they remain away from the mines and continue on strike until the companies employing them agree to the conditions offered by the other companies; and the employees of the companies who have offered the advance of ten per cent. and abolished the sliding scale are hereby authorized to resume work Monday morning, October 23, and to be prepared, if called on, to contribute a reasonable amount of your earnings for the maintenance of those who may be compelled to continue on strike."

Miners Rejoicing.
Hazleton, Pa., Oct. 27.—The termination of the anthracite coal miners' strike is not yet general, several of the operating companies having failed to post notices granting the increase which the men demand, and on the acceptance of which the great majority of the 142,000 men who engaged in the struggle will return to work Monday, but nevertheless the whole anthracite region is filled with joy.

Miners Resume Work.
Hazleton, Pa., Oct. 29.—The 150,000 miners of the anthracite region, most of whom have been idle for nearly a month because of the strike, will return to work this morning, and, with the exception of a few mines owned by individual operators, who have not yet granted the miners' terms, the great industry will be in full operation. Nearly all the coal companies have posted notices granting their employees the ten per cent. increase in wages asked for by the Soranton convention. It is said that the few individual operators that are still holding out will within a few days tell their men that they will grant the demands of the miners.

MULDER BROS. & WHELAN

Holland, Mich

Electric Road to Grand Rapids

In a write-up of the Grand Rapids Holland & Lake Michigan Interurban electric road the Grand Rapids Herald says:

"Aside from its passenger business, the Holland road is counting on doing an immense freight business with the farmers and merchants along the route. To this class it means bringing the Grand Rapids market, with its hundreds of buyers, within easy reach. Fruit growers along the line who were compelled to ship all their peaches by freight and depend upon unscrupulous commission men to handle them at the other end of the line, can load up a car early in the morning, follow it to the city on a passenger car, and dispose of their fruit according to their own best judgment. The same will hold true of every other class of farm produce.

One of the questions which the promoters of the company have been asked many times is whether the company will run a "theater car." As the company will run its last car after the shows are over it will be easy for the man and his wife living 20 or 30 miles from the city to board a car, come to town, see the show and return home before 12 o'clock. And there is every likelihood that such a plan will be carried out generally along the line. And what holds true for the theatrical attractions will be equally true for others. Political or religious gatherings will in the future draw a portion of each audience from out of town. It is expected that the highest rate of fare charged will be a cent and a half mile, and this may be reduced, and certainly will be on special occasions.

The cars which will be used on the line will be of the variety used on the Ann Arbor line in Detroit, which have developed a speed of 50 miles an hour. They are heavy four-truck conveyances and ride as easily as a parlor coach on a steam railway.

It is impossible at this stage to state just how much time will be required to make the trip from Grand Rapids to Macatawa park, but the company is confident it can equal the time made by the steam roads."

Mayor Brusse Receives Replies.

The money raised in this city for the relief of the Texas flood sufferers has been received by the relief committees of Galveston and Amsterdam and Mayor Brusse is in receipt of the following letters of acknowledgment.

Executive office, state of Texas: Austin, October 16—I am directed by the governor to acknowledge the receipt of your remittance of the 25th ultimo, for \$1,047.49, contributed by your good people for the relief of the storm sufferers on the Texas coast, and to request you to extend to the generous donors his sincerest thanks.

N. A. ORAVENS,
Private secretary.

Amsterdam, Tex., Oct. 1—Your draft for \$300 came today and will be used to help rebuild the homes in Amsterdam. Some of our people are having. All such are provided with ample food and women with free transportation, the men with one-half fare tickets wherever they wish to go, and those who wish to rebuild will be furnished with means by our committee so long as our funds last. HOLLAND CITY NEWS:—"Though not, as a clergyman, in politics, I publish in refutation of some allegations, that I can't stoop to vote for Bryan, Tammany, Croker, Goebellism, disfranchising our colored fellow-citizens, debased money, free trade and the Populistic spirit, and socialistic hate of the so-called Democratic party. I support McKinley and that able, strong, incorruptible New York Dutch man, Theodore Roosevelt."

P. MOERDYKE.

Chicago, Oct. 29, 1900.

Rev. P. Moerdike Denounces Bryanism.

The following letter was received by Peter Brusse, secretary of the republican county committee in Ottawa county, from the Rev. P. Moerdike, the pastor of the Reformed church in Chicago, in which Gov. Roosevelt worships whenever he chances to visit the Windy City. Mr. Moerdike formerly occupied a pulpit in one of Grand Rapids' Reformed churches.

The letter reads as follows:

Chicago, Oct. 26, 1900.
"Mr. Peter Brusse, Secretary Republican County Committee, Grand Haven, Mich:

Dear Sir—I have just received a copy of "Boer Boekje" you had the kindness to send me. As you are a republican as well as myself, it may be worth while for me to state my present position.

I have since my fourteenth year been, and still remain an ardent republican, for reasons which to me, are sacred convictions. I was, and today am, an ardent pro-Boer man. My views of England's wicked war are unchanged, and I still hold that the United States' administration appeared too warm of heart for English monarchy and too cold toward the republics of South Africa.

If President McKinley had done nothing; if the principles and aims of the two parties did not widely differ; if I believed that the democrats could and would save those republics; and finally—if it were not manifestly too late to rescue or aid the Boers—then I would seriously consider the propriety of overlooking my own dear country's interests on November 6 and of casting my ballot to decide a foreign issue.

Democratic principles and practice prove utterly false their present loud claims and promises in favor of liberty in South Africa or the Philippines. Are they who rob our own fellow citizens in the southern states of their liberty and rights sincere and honest in pleading for nations and states so distant? Can I conscientiously vote to place in power the party that approves of and encourages and profits by this violation of the constitution and this disfranchising and enslavement of United States citizens in the south?

when we most need it and our people heartily appreciate it; again accept our thanks for your generous effort in our behalf. We remain

W. WEYANT, JR.,
Chairman relief committee.

C. Ver Schure has received the following communication from the chairman of the relief committee at Amsterdam, Texas, acknowledging the receipt of the last remittance sent from this city to the Texas storm sufferers:

Amsterdam, Texas, Oct. 24—Enclosed find letter acknowledging the receipt of \$63.94, and \$1—total \$64.94—sent by you for the benefit of the storm sufferers at Amsterdam for which accept our thanks.

"We are in need of means very badly to rebuild with. We have some one half dozen houses to rebuild that are totally destroyed and we are receiving practically nothing from the general relief fund."

"The main aid we have had has been from your city—\$300 once before and \$65.94 now. Had it not been for this aid I don't know what we could have done."

"Should there be any further donations in your city it would be a God send to this people if they get it. Thankfully I remain

Yours truly,
W. WEYANT, JR.,
Chairman relief committee.

Corner Stone of Hope Church

The corner stone of the new addition of Hope church was laid last Tuesday night with impressive ceremonies. Rev. J. T. Bergen conducted the services in the old edifice. Dr. H. E. Dosker, Rev. G. H. Dubbink and Charles Dutton, D. B. K. Van Kaalte, G. H. Souter, members of the consistory occupied chairs in front of the altar.

An air of solemnity prevailed the gathering when Rev. J. T. Bergen extended a cordial welcome to the audience and gave a historical review of the founding of the church. After prayer by Dr. Dosker a short address was delivered by Rev. G. H. Dubbink, pastor of the Third Reformed church.

Dr. Beardslee, chairman of the building committee, who was unable to be present on account of illness, had been selected to lay the stone, and in his absence the ceremony was performed by Prof. C. Doesburg, the oldest deacon of the church.

At the conclusion of the indoor services the congregation repaired to the churchyard. Large bonfires lighted up the yard and lent an air of cheerfulness to the solemn and impressive occasion. A hush fell upon the group as Prof. Doesburg said: "I lay the corner stone in the name of the Father, the Son and the Holy Ghost." Rev. J. T. Bergen led in

I love the liberty of the Boers full well but I love liberty at home more.

I oppose with all my heart the dangerous and ruinous doctrines of free trade and free silver, and I could not think of bringing to my own country distress and dishonor by neglecting my opportunity to aid in the defeat of such principles. I advocate protection and sound money, and believe it my bounden duty to further the prosperity and honesty of our country.

I have lost all faith in the leader of the present democracy, and regard him as an unsafe man, a demagogue, and largely a tool of Tammany and Croker—names that shock and fill with loathing all true Americans.

Mr. Bryan is in that unalloyed company, and thoughtful citizens who seek honest and pure government and the best moral conditions cannot afford to support a candidate or party that is too largely under such infamously corrupt and corrupting influences. We need liberty and independence at home, and must and shall not be governed by such organizations and bosses without the consent of the governed.

To rebuke a wrong done to friends ten thousand miles away, and meanwhile suffer our own people's degradation, financial distress and dishonor under such foul misrule—no never!

Our ardent patriotism begins at home and the sacrifice of such vast and fundamental interests at home in the now useless efforts to aid the Boers would be the climax of folly.

Let all Hollanders prove themselves to be first of all Americans, who secretly promote in their own dear land liberty, equal rights, prosperity and national honor by voting the republican ticket.

I am not going to run to the next ward to help save my friend's burning home and stuff, while I have to fight off the fire next door, which threatens to destroy my own house.

The Hollanders of the United States were nearly all republicans, and confess that they are today mostly in accord with its platform. Why then should they let their passions or resentment, and not principles, determine their vote? Why turn your backs, republican brethren, upon great principles so dear and so near to you, just to express your disapproval of one or two things of less weight?

Yours truly,
P. MOERDYKE.

This closed the services and those who attended returned to the church parlors where coffee and cake was served by the ladies.
